Dear Mr. Czink,

It is with great pleasure that I enclose the Gold Medal of the MoD Military History Institute and Museum, and its award certificate for you. The Medal has been awarded in appreciation of your significant activity as President of the International Hungarian Military History Preservation Society, and it is also a token of gratitude for the most generous donations you have made to and arranged for the Hungarian Military History Institute and Museum. As the text of the certificate demonstrates, your voluntary work for the preservation of Hungarian military traditions and their promotion through the publication of the newsletter *Magyar Front* in the English language, are held in high esteem. I am convinced that your efforts help many people throughout the world, either of Hungarian origins or simply with an interest in the country, get a better knowledge of this special field of Hungarian history.

Please accept the Medal and let me wish you good health and further success in the field of your activity as President of the Society.

Yours sincerely,

Lieutenant General Dr. József Holló
Director General
